14 The SiteTech Difference

16 Our Team

We're leading the way in supplying engineered, compliant, versatile and easy-to-use safety solutions.

Benefits of SiteTech Safety include:

Technology

Patented E Bracket roof edge protection systems that can be set up more efficiently than conventional systems. Faster install, removal and the ability for in-house teams to complete the work means time and money saved.

Greater Site Efficiency

A suite of products designed by engineers to work seamlessly together. Minimal interference to existing structures and worksites are ready faster with fully adjustable E Bracket systems that can be set up safely from the ground. No more waiting for scaffolding companies!

Compliance

Rigorously designed and tested to be compliant with AS/NZS 4994.1:2009. Rest assured that you are meeting the OHS standards.

Simplicity

Easy to stack, easy to transport and easy to store.

Our Products

Introducing the EBracket®

The Patented E Bracket® edge protection system is designed to service industries and trades throughout Australasia. All products have been engineered and passed stringent testing to comply with AS/NZS 4994.1:2009 Standard. With design and manufacturing kept in New Zealand and Australia, the highest level of quality assurance is guaranteed.

EBR

The EBracket® - Re-Roof

The most versatile Ebracket of the range for all industry sectors.

With a max height of 8 meters from ground, the Re-roof is used by many industries and is highly sought after for solar installation, roof painting/coating, re-roofing and building maintenance to name a few. Temporary edge protection has never been easier to achieve. Combine this Re-Roof system with the Rail Racer for installation speed that can't be beaten.

The EBracket® - Sheds & Rural Buildings

Australasia's leading suppliers of residential sheds, barns, farm and agricultural buildings need an edge protection system that is adaptable to suit multiple cladding profiles, simple in design for ease of use, maintenance free, and strong enough to perform in Australia's harsh conditions.

Combining engineering and innovation whilst maintaining quality through in-house manufacturing has delivered a superior product that fulfils the customer needs and is unmatched by our competitors.

EBC

The EBracket® - Commercial Range

Commercial or industrial building and commercial solar industry solutions.

Our commercial range consists of adaptable brackets and mounts that service a variety of complex customer requirements encountered during all stages of the initial build process and then post-build, to enhance building performance and carry out ongoing maintenance. Commercial scaffold companies also offer this range as a cost effective, faster alternative to conventional commercial scaffolding.

Why are our systems the best?

Fully Compliant

No Scaffold Tickets or Qualification Required

Cost Effective

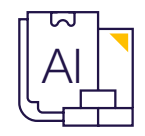

Stackable

Efficient

No Damage to Eave

Compliant Lightweight Aluminium

Australian & New Zealand Made

No Height Restrictions *

**New commercial range*

“Our relationship with SiteTech Safety has been everything we value when we look at partners in Business, their ability to deliver a superior roof safety product with so much scope and diversity is second to none. For us it ticks all the boxes in a safe working environment for our team. It has been backed up by positive comments through Worksafe onsite during random inspections and has been referred to others in our industry as a better safety option.”

Dave Jones, Director - Lake Mulwala Roofing

We are proud to have worked with well-known Australian brands

SiteTech Group is proud to partner with like minded companies that have a reputation for excellence within their industry.

SiteTech Safety has resellers throughout Australia to provide the 'on the ground' support you will need.

A team of safety professionals with comprehensive product knowledge and training aids to support your business compliance.

Eight years of product development, born out of the necessity to provide alternatives to traditional scaffolding, has resulted in products that are now the preferred option for roof edge protection NZ & Australia wide.

The SiteTech Difference

Our commitment to you

- SiteTech has the most innovative, technologically advanced and superior quality safety products available. We will bring new technologies forward as they emerge.
- SiteTech has partnered with leading training organisations throughout Australia. We will ensure your staff receive the best induction guides, video support material and we can also provide personalised training.
- SiteTech is known for service. We will go the extra mile to ensure you are happy with the product and the support you receive.
- We are your one stop shop for safety products. Fall protection, site establishment, star pickets, safety signage, SiteTech Safety removes the hassle of having to buy products from multiple companies.
- We are 100% Australian owned and operated by the owners of the business.

Ultimately, our work is about keeping our tradies safe, ensuring they return home.
